Food Trucks

All food trucks operating within the City of Hinesville must comply with applicable codes, standards, and laws as set forth by the NFPA and the State of Georgia. It is the intention of the Fire Marshal's office to routinely inspect food trucks operating within the City for this compliance. In order to assist the operators with this inspection, the following checklist and informational sheets are provided. Failure to pass a compliance inspection may result in an order to cease operations by the Fire Marshal or his/her designee until compliance is achieved.

The following items will be verified during the inspection:

- Is there a grill or fryer in the truck?
 - Grills and fryers require hood ventilation and fire extinguishment systems
- Is there a fire suppression system installed? **NFPA 96:10.1.2**
 - Is the tag in date? Must be serviced every 6 months.
- Is there a ventilation system installed?
 - Is the hood clean and inspected? Must be inspected at least annually.
- Is there a Class K extinguisher? **NFPA 96:10.9.3**
 - Is it readily accessible?
 - Does it have a valid inspection tag? Must be inspected annually.
- Is there a 2A-20BC fire extinguisher? **NFPA 96:10.9.3**
 - Is it readily accessible?
 - Does it have a valid inspection tag? Must be inspected annually.
- Are all propane tanks secure?
- Do not block fire access roads.

Food trucks without proper business or food services permits or licensing will be ordered to cease operations immediately. Event coordinators must retain a signed copy of this letter for all applicable participants. Any questions regarding these requirements should be directed to the Hinesville Fire Department's Fire Marshal's Office.
